Working Together
In an ideal world all of our governments would be working together in a manner which ensured each and every one of our children received the same education. We know this is not happening. As a school we have a resource allocated to us which we then use to run the school. Unfortunately this is a finite amount. There are many occasions when teachers come to see me and want to take students to an event or a camp or some other learning experience. These on most occasions cost money. We are very fortunate at this school that our School Council ensures that we do support all of our learning activities and subsidies events so costs for parents are as affordable as possible. When we send notes home for excursions it helps us greatly that the notes and money for those events are returned promptly to school. When everyone is able to meet those payment expectations we can then continue to make the student events as affordable as possible. So please work with us to allow this practice to continue.
