Reading tips
Find books about something you know they like. When your child reads and gets a word wrong, let her finish the line before you correct her. Children often realize what the word should be and go back and correct themselves. If your child doesn’t know a word in a sentence, get her to say something instead. She can often work it out from other words around it.
Most importantly, try to keep cool! It’s important not to get fed up if your child needs to practice things over and over again. And remember, words are everywhere. Encourage your child to read all sorts of things like cereal boxes, videos, billboards, street signs, newspapers, CDs.
